

11-14-1984-p.3

throughout the great hall was not 74, but it is very warm in the sunlight in the great hall. The three 15-foot high windows through which the sun is pouring are the reason that the great hall has warmed up so dramatically in the past three hours. In the entrance hall, into which the sun does not penetrate at this time of day, is very cold at the moment. Such an adventure.

RTP telephones at around 10 A.M. -- he sounds terrible. Very weak and "down" -- he reported that his legs are so weak that he can hardly stand up. RTP: "What about tape no. 3," he asked. Thus far he has, at my urging, talked into the tape recorder on two separate occasions -- both times for about 90 minutes I believe. Maybe not a full 90 minutes on each occasion, but nevertheless we have a very complete account of his illness. I'm not sure when we did the last tape, but we will update the tapes by making tape 3 this afternoon; I am to arrive at Brookvalley between 2 & 3 P.M.

Took my sassafras & a couple of other plants (my resting gloxinia, my geranium from Jean Colville) to the golf course for the winter. Went to Post office & ran into Hank Loftin, who reported that there was a nice story in last night's Times about the rail meeting that we testified at yesterday. Notable to find the issue on the newsstands today. Hank will get it.

11-14-84-p.4

went to see Jean Colville and we discussed the flower box/green plants. Terry Coleman was there. What a fabulous kid he is. He will attend PS4 next year. What a grand time he will have. I helped him and Jean put the storm door on the Colville house. Went to Brookvalley - Ann was at work and RTP did not want to do the tape session elle. RTP was doing OK. He was in slow gear but doing OK. We will try the tape session in a day or two. Tomorrow is not good for RTP because Ann will be working and she is necessary for the sessions. Went up to the golf course and HCRP and I put my plants up in the S.R.P. bedroom. In a day or so I will take my two tree geraniums into the golf course. They will be more of a problem when it comes to transportation.

Sent a post card to Cecile Roberts today —

" 11-14-84

Dear Cecile —

I'll not be able to make the Whippoorwill Show [11/16-17-18/1984]. If you have a buyer for the new spoon, don't hold them for me.

Robert Powell"
